## PROFESSIONAL SUMMARY

Motivated 4th-semester BSc IT student and aspiring MERN Stack Developer with a strong interest in building fast, clean, and user-friendly web applications. Hands-on experience creating responsive interfaces using React.js, Next.js, and Tailwind CSS, with a solid understanding of component-based architecture, state management, and API integration. Familiar with developing REST APIs using Node.js and Express.js, MongoDB database integration with Mongoose, JWT authentication, and CRUD operations, as demonstrated through full-stack and backend projects published on GitHub. Comfortable working with Git, GitHub, Postman, and modern development tools. A quick learner with a problem-solving mindset, a habit of writing readable, maintainable code, and a willingness to collaborate in a team and grow through real-world projects. Seeking a Frontend Developer or Junior MERN Stack Developer internship or entry-level opportunity where I can contribute my skills and continue to learn.
